

Instructional Resources

Transition to College Mathematics is a free online <http://kyote.nku.edu> textbook written to support Kentucky's college readiness program. The KYOTE college readiness math and college algebra placement exam standards discussed in each section are clearly identified to help teachers deliver targeted interventions with the assurance that all placement exam content is covered. The exercises are also offered in Microsoft Word so that teachers can easily use them to build their own customized assignments and formative assessments. Spiral-bound hard copies of the text can be ordered through the website for **\$7.00** per copy plus shipping.
